

# | Accreditations

An accreditation device is a working tool and will only be issued to people who have a working role at the FIFA Confederations Cup Brazil 2013 within the operational time frame. The accreditation represents a personal ID and grants you access to different areas (zones) depending on your role at the respective site.

It is a security tool in terms of identifying accredited people properly onsite and therefore it has to be visible at all times.

## **PLEASE NOTE:**

*If you have reported a lost/stolen accreditation device in error and were able to regain possession of your original at a later stage, you will **NOT** be able to continue using the device. All accreditations will be made void and will be rejected at the check-points as soon as it is reported stolen/lost*

# Supplementary Access Devices (SAD)

## **Overview**

In order to limit the amount of people circulating in sensitive areas on Match Days, the LOC will enable a Supplementary Access Device (SAD) as of 3 hours prior to kick-off for zones 1, 2, 5, 6 and 9. This will affect operations such as Hospitality, VIP, Mascot and VIK which normally need access to Players Tunnel, Players Changing Room and Field of Play.

- Even if a person has such zones shown on their accreditation device, access will only be allowed upon presentation of a SAD.
- SAD's do NOT overrule accreditations or vice versa, but rather they work in complementary fashion. Both are needed at certain times to access areas.

**Please bear in mind that a very limited amount of SADs will be distributed for each operation.**

## **SAD Activation Zones**

- Zone 1 – Field of Play
- Zone 2 – Competition Area
- Zone 3 – All Public Areas
- Zone 4 – Operations Areas
- Zone 5 – VIP Areas (minus *VIP Reception Room*)
- Zone 6 – Media Tribune
- Zone 7 – Media Centre
- Zone 8 – Broadcast Area (minus *TV Compound*)
- Zone 9 – Hospitality Area
